

Master List of
Western PA's Certified State Law
Compliant Home Inspectors

ASHI® home inspectors know how to look at your home and tell you things that no one else can. When the clues reveal themselves, we know how to discover the components that aren't right. Courteous and frank communication at the inspection will encourage smart decisions. You and others you choose will be able to gather valuable information about the condition of the house at the inspection. We will follow up with a written report that documents our findings. You will be able to share the written reports with others you choose. You will have peace of mind because you will understand the condition of your new home and will have it in writing. You will be encouraged to make smart decisions and have peace of mind in your home buying experience. **That is the ASHI Experience!**

THE
EXPERIENCE.
WE SPEAK HOUSE.

Master List of Western PA's Certified State Law Compliant Home Inspectors

According to P.H.I.C. estimates, 40% to 60% of currently practicing PA Home Inspectors are not compliant with the PA minimum requirements under ACT 114, The Home Inspectors Law.

This is the ONE SOURCE for verified compliant inspectors. You can trust your ASHI® home inspector to bring personalized service, expert knowledge and peace of mind in your home buying experience. We are the authors of the ASHI EXPERIENCE and the ASHI Standards of Practice recognized as the inspection industry's "gold standard."
